1959/60

OTAGO CHESS CLUB - 75th ANNIVERSARY

67th ANNUAL CONGRESS
of the
NEW ZEALAND CHESS ASSOCIATION
TOURNAMENT RECORD

Games of the :
New Zealand CHESS CHAMPIONSHIP
CHAMPIONSHIP RESERVE
2nd CLASSIFIED TOURNAMENT

Record Editors R.A. RASA
W.A. POOLE

Record Publishers
The Congress Committee of the
Otago Chess Club (Dunedin).

BEFORE THE TOURNAMENT

On the morning of Monday, 28 December 1959, players in the Congress were welcomed to the Otago Chess Club by its President, Dr R. Gardner, who would also be the Director of Play for the tournament. Dr Gardner introduced Councillor K.J. Marlow, grandmaster and President of the Club, J.J. Marlow, who was unable to be present himself. Dr Marlow welcomed the visitors on behalf of the city of Dunedin, and made a short speech praising the internationalism of chess - the way it transcends national boundaries and national feelings. At the conclusion of his speech he officially opened the Congress by making the draw for the New Zealand Championship.

OTAGO CHESS CLUB

The host club for the Congress is the Otago Chess Club which celebrated its 75th Anniversary in 1959. Chess in Dunedin is much older than the club which was not the first formal association of chess players in Dunedin. Having 75 years of continuous existence, the club thought it appropriate to ask the New Zealand Chess Association to hold its 1959-60 Congress in Dunedin, to round out the memorial year.

12 I. Hayes (Dunedin)	0	0	0	0	0	0	0	0	1	0	0	X	1	12

Ortvin Sarapu (Auckland) formerly of Estonia, has added one more to his array of successes in the New Zealand Championship. This was his first appearance for a number of years, as he has been playing in Australian tournaments for the past few Christmasses. A. Feneridis (Wellington) is a former joint holder of the Championship, and is recognised as one of the strongest players in the Dominion. Before he immigrated into New Zealand, he held the championship of Crimea. Rodney Phillips (Auckland) is not long returned from the World Junior Championships where he gained a place in the Final Tournament for the title. He, too, is a former New Zealand Champion. Les. Esterman (Dunedin) made his first appearance for a number of years in the Championship. He plays regularly in the South Island Championship, and is an expert correspondence chess. Roger Court of Wellington, has recently been with a series of provincial tournaments. He has played in the last few championships, and once captured third place. 'Zig' Frankel and Bruce Marsick appear at Congress almost every year, and can be expected to make some beautiful wins. Graham Haase and Brian Douglas won the right to play for the Championship at Hamilton last year. Dick Sutton, Frank Hutchings and Ian Hayes are all young men with plenty of championship chess ahead of them.

Marsick started quietly against Douglas' Robatsch Defence, but suddenly lashed out with an unsound check that cost a piece. For another 40 moves the game swayed back and forth until Douglas managed to snare Marsick's las rook.

Court conceded control of the queen's file to Phillips who was only too pleased to make the most of his advantage.

When under a little time pressure Phillips headed for an endgame he left Court nothing to fight for.

Sutton donated a pawn to Sarapu in the opening, and spent most of the rest of the game playing excellent defesive moves. He was working to trap the queen when Sarapu suddenly sacrificed the lady to win in the endgame.

Hayes was rather taken aback when Feneridis played Bird's Defence to the Ruy Lopez, and he soon found himself retiring the Spanish bishop to KBl. Nevertheless he did get a good position for the middlegame. Feneridis took advantage of Hayes' clock trouble to make a decisive pawn-push on the Queen's wing.

The sensation of the round was Hutchings' defeat of Esterman in only 16 moves. With an otherwise playable game, Esterman went after a piece, overlooking a mate threat. First round nerves?

Haase tried the 2 B-N5 line against Frankel's Dutch Defence. Frankel chose a rather inferior line which eventually lost a pawn. Sacrificing more pawns gave him some initiative, but he could not save the game.

FIRST ROUND (28.12.'59)

Sutton played strongly against Frankel's Alekhine's Defence, and had command of considerable territory from the start. A blunder cost Frankel the exchange, after which the result was never in doubt. Esterman and Marsick decided to play lightning chess and dawdled both on the board and on the clock for the first twenty moves. For the next 20 moves Esterman had 25 minutes, Marsick only 10. In the scramble Marsick could not maintain equality. Court tried to improve on Fischer-Tal, Bled 1959, in his game with Sarapu, but found his Q rather exposed. Sarapu pressed strongly down the Q wing, and wound up the game with a sacrifice of the exchange. With the black side of a King's Indian Hayes quickly gained equality and even some advantage, but he again took a ridiculous amount of clock-time doing this. When Haase countered strongly the time pressure was too much. Hayes went over the time limit at the 23rd move! Douglas took some risks in the centre and then put his queen out of play. Phillips forced resignation at the 38th. Feneridis played 3 b-kb4 against Hutchings' King's Indian. Keeping the K wing quiet, he steadily gained ground in the centre and on the Q wing where Hutchings had a weak pawn. Even a sacrifice of the weakling could not free Hutchings' game, and he went over the time limit in a lost position.

A Tricky as it is, this does not amount to much. B-kn5 could be played, with much sharper play and good development for White.
 B With the Q out of play it is difficult for White to find a really good line. But 16 p-k5 should be tried, getting eventually the king castled, and some counterplay.
 C Why not try to repeat moves with b-bl again?

8 p-q5	n-qr4	16 bxn	on time

A If there was any purpose to 9 n-k1, it was to advance on the king side. This now obstructs the KBP. Black decides to open the centre, but also playable is ...p-k4, with Qside activity.

B Riskily fishing for complications. C 12...n-k5!

D Black plays too passively from here on; still ...n-k5

E Starting a clever combination. F A piece is lost because the rook on K1 is twice hit after the B on f4 is driven off. Even the aggressive ...q-r3 does not save the situation.

Hutchings and Haase followed MCO in an unusual line of the Ruy Lopez for the first 10 moves. After abandoning the book Haase opened up his centre to Hutchings's advantage. The latter clung to his advantage and won in the endgame. Sutton and Court played an unusual Queen's Gambit Declined with White gradually gaining the upper hand. Even winning the exchange, however, did not enable Sutton to win the game. With a perfectly good game Hayes again seriously misjudged the position, and presented his opponent with a winning attack. Frankel won in 19 moves.

Sarapu could not gain much from the early part of the game, but his precision with 2 bishops in the endgame soon forced Douglas to resign. Feneridis ruined Marsick's attempt to set up a Stonewall attack, but incorrectly pushed a pawn in front of his king. In an exciting game Marsick built up a powerful attack, but he missed the strongest continuations. In an endgame of Bishop versus 3 Pawns, Feneridis gained complete control. Phillips again tried to surprise his opponent with a new variation. Esterman reacted with vigour in the centre, quickly converting his initiative there to a King side attack. Getting short of time, he does not pursue the most vigorous line, but selects a variation leading to a clear draw.

This round saw the first of the battles of the giants. when Feneridis was paired with Phillips. However the giants refused to put any energy into the battle. Over the last 10 moves or so its continuation depended on Sarapu's degree of success against Esterman. Eventually even Feneridis decided there was nothing in it, and the draw was agreed.

Sarapu had a long struggle with Esterman, who overlooked the loss of a pawn, and surrendered the exchange to get some life in his game. Sarapu returned the exchange to quell the initiative, and collect a second pawn. Immediately afterwards he made an inversion of moves that wrecked his winning chances despite the 2 extra pawns. Steady defence by Esterman in the endgame brought him half a point.

Haase was overcautious against Marsick's King's Indian Defence, and a couple of weak moves in a passive position cost the game. Hayes gave Hutchings a piece in an even position.

Frankel tried an odd Four Knights on Court. The latter grabbed a pawn in the opening and held it. The rest of the game was trappy but hardly sound.

Douglas played a very fine attack arising from a Ruy Lopez against Sutton. This is one of the most interesting games of the tournament, and we have asked Douglas to supply the notes.

It is sad indeed to see a gifted player as badly out of form as

Hayes is in this tournament.

NOTE TO ESTERMAN SARAPU Continued

C Returns the exchange to escape the pressure on the K side, but he remains two pawns up. D Miraculously, the game is now drawn. The loss of one tempo allows Esterman to get his K to K4 and block the position. 37..p-b5! would get the Black K to KE4 which would win by arriving at the zugzwang that Sarapu tries to force later.
(Notes contributed by O. Sarapu)

13	b-k3	n-r4	26	n-r7?!	q-b4??						

- A 8...p-q4 is the common reply. The text doesn't turn out too well
- B The kp is tabu because of 24 n/4-b6+ winning the Q with a mate threat.
- C To stop n-b6+ but White's tenacity is unlimited.
- D White's ingenious attack is running short of ammunition, so he tries a last desperate attempt to trap his opponent who is short of time, and just succeeds. 25 ... kxn! should win for Black.
- E 29...qpx should be playable.

After this round Douglas was admitted to hospital with suspected appendicitis. His game against Court should not, therefore be made subject to deep criticism. . . . Badly underdeveloped, Hutchings allowed Frankel's army to encamp around his king, and lost a piece with the greatest of ease. . . . Playing an open Ruy Lopez against Haase, Phillips tried the 8nxkp with which Bronstein trounced Pachman at the Portoroz Interzonal Tournament. It worked rather well here too

Noticing Hayes terrible tendency to blunder, Marsick simply played to complicate the game, and get his opponent short of time, regardless of sound play. He was correct in his assessment of the probabilities. . . . Sutton and Esterman quickly brought a Sicilian Defence to a draw. . . . In another vital game Sarapu met Feneridis. The resourceful Feneridis gets himself into some uncomfortable situations and out again. Once more he was using the old form of Ruy Lopez, which now appears infrequently in tournament practice, and, on top of that, he doesn't handle it too exactly. His game was, however, only slightly inferior when he overlooked a combination. Sarapu finished the game quickly and efficiently.

A While it is not a mistake, this move is surely not the best.

B Neither is this. C This move is a waste of a tempo if it is

not followed by 21...r/2-k2 and exchange of rooks. D White's

positional advantage was increasing but the game was not yet lost.

This blunder allows a combination to force checkmate.

Scared by White's 12 b-q3! , Black braces himself for the
 being...p-b3, not suspecting Marsick's odd way of playing
 psychological chess. Much better for Black would be counteraction
 in the Q wing, commencing...n-qn5.
 "Unsound, but played in the knowledge that Black was already short
 of time, and does not play well in clock trouble" (Marsick) "There
 it is! It is not a question of being sound or not, but of frightening
 an off-form adversary into submission.

A Since the KB is developed on the long diagonal, it would be more direct to play 3...p-qb4. B Neither sharp nor sound. Why not QxB?
 C ...qn-q2 is better.

From the sporting point of view, the sixth round turned out to be the most exciting so far played. Quite unexpectedly, the leader, Sarapu, finds himself in a four rooks endgame which couldn't be won. The culprit this time was Haase - and was he proud of his achievement?? The other near sensation was provided by Hayes playing against Phillips. Phillips craftily transposed his opponent into playing the white side of a Yugoslav king's indian, a thing Ian never does voluntarily. But it did Rodney no good whatever, as Ian outplayed him to collect the exchange and have a passed pawn on the Queen's wing. However Ian overlooked a mate on the move - against his own king! Sutton played impressively to keep his half of the point involved in his game with Feneridis. Marsick scared the daylights out of Hutchings with a delightful exchange sacrifice on the 15th move. Both players then indulged in some fancy analysis instead of fighting it out over the board - an early draw was agreed. Esterman had Court within his clutches for a long time on the white side of a double-Dutch defence, only to see Roger slip out for an easy draw. Douglas who has been playing very well, had the misfortune to bite a foul shark in his fish-&-chips lunch. The shark won and Brian finished up in hospital. His game with Frankel was played on 3.1.'60, and was an interesting draw.

A In this position this is a loss of a tempo. DRAW AGREED
 Black should exchange. B Not 8 bxp as the QP or the QBP would then be lost. C The original plan was n-qr4, but the White B on Q2 scared him off. 9...n-r4, 10 q-r4 p-b3, 11 n-ql &...p-qn4 is off.
 D With a passive and difficult game. E Too passive, but 13..p-kl
 14 pxp pxp, 15 nxn nxn, 16 n-q5 q-b2, 17 p-b4! is too dangerous.
 F Black can only just hold out now. G Surrenders a piece for 2 pawns. 27...b-b1 loses to 28 p-qb5, and 27...pxp is no better.

					r-k8MATE	C

A Much stronger than p-b4 at once.

B Losing the exchange, and almost the game as well. It is difficult to understand why Phillips did not play...b-q3 with a passive but safe game.

C It is not possible to write anything new about chess blindness, but in terms of poetic justice this was a cruel blow to a player long past due for a win.

In a round of fluctuating fortunes Phillips missed a lovely chance against Hutchings with 20 p-b6! which would have been good even at the next move. Instead of having Frank in an impossible situation, he drifted into a lost endgame. Court was not wily enough this time. After a series of positionally weak moves he tried a frankly desperate sacrifice of a knight for 2 pawns against Feneridis. Not to be outdone, Feneridis returned the compliment, mating Court's king in the process. Sutton and Haase had a competition to find good and bad moves. Sutton got the prize. Sarapu once more had to work hard in the endgame with one extra pawn, this time against Hayes. Continuing his policy of assistance to the hard-working, Ian helped Ortvin out with an obliging bishop move. Frankel and Marsick played a very quiet game in which all 16 pawns lived to a ripe old age. In the second session the break-through required a sacrifice which would not have worked well, and the game was drawn. Douglas tried to be far too enterprising, and tested an unsound sacrifice on Esterman. Les found the right answers all the way. There was no end-game.

against Esterman, Frankel tested a variation of the white side of the Sicilian popular amongst the Wellington players. Although he did not follow the books, and left the most enterprising variation alone, Esterman quickly obtained a satisfactory game. Frankel's positional sense deserted him, and there is little fight in the later middle-game. Hayes and Sutton played an interesting Marshall Gambit in the Ruy Lopez. While Ian was hunting around for reasonable moves, Dick arrived in force on the central files and it was all over. Sarapu played another Sicilian against Hutchings. When the game was adjourned Sarapu had 2 extra pawns in a queens endgame, and Hutchings resigned without resuming. Since his illness Douglas has been right out of touch. He was quickly outplayed by Feneridis in a quiet queen's pawn game, and hastened his own resignation with a blunder. Marsick did not get off to a good start against Phillips when he lost the exchange at the 15th move. He tried to find a mating attack, but never had a good enough head of steam...or did he? Court surprised Haase with the black side of a Queen's gambit declined, Graham failed to find the aggressive lines, but pushed on with a premature pawn advance. He resigned when Roger was certain to retain a spare horse.

10	b-k3	0-0	20 kr-n1	q-b2	30 p-kn3	p-qn4	40 k-b1 q-r8

A 4...n-kb3 has been suggested, but the text is "book"

MATE

B "Book" here is 5...b-n5 as tried in Eriksen-Rasa (Wellington-Otago Match, 1959). Despite this Rasa and Esterman still think that the most enterprising is 5...p-k4

C What is the need to exchange

a perfectly placed N for this miserable B!?

D Frankel's positional sense deserts him, and his game fades out by itself.

Game 8.2 HAASE

COURT

Queen's Gambit Declined

1 p-q4	p-q4	10 q-k2	n-b3	19 n-n5	p-b7F
2 p-qb4	p-k3	11 r-ql	p-qn4C	20 r-qb1	qr-bl
3 n-qb3	n-kb3	12 p-q5?D	knxp	21 rxbG	pxr
4 b-n5	p-qb4A	13 bxn	pxb	22 rxp	q-k4!
5 p-k3	pxqx	14 rxp	q-b2	23 p-kr4	qxq
6 kpxp	b-k2	15 0-0	E b-k3	24 rxq	n-kb4

8 b-q3B	pxp	17 bxb	bxn		
9 bxp	p-qr3	18 r-k5	pxn		

A Tartakover's line which is sharp when continued 5 pxqp bpxp. White transposes into the Panov attack. B Here p-qb5 is strong and leaves Black with a difficult game. C Badly weakening the QB file...q-b2 seems better. D Premature as the powerful KB is now exchanged. b-n3 was the move. E Leads to the loss of the exchange at least. F A vital intermediate move which slays the counter chance. G Black will now remain with at least one extra knight.

Game	8.3	HAYES	SUTTON	Ruy Lopez (Marshall's Gambit)
1	p-k4	p-k4	10 nxp	nxn 19 r-k5! bxr
2	n-kb3	n-qb3	11 rxn	p-qb3 20 bpxb b-r6

WHITE RESIGNS

Many of the players showed signs of weariness...Frankel absentmindedly puts rook on the wrong square and loses a bbshop. Douglas tricked Haase to win a pawn, only to let his advantage slip away. Eventually he allowed his queen to be trapped and had to give in. Dick Sutton took a day off - he could do nothing right against Hutchings. Esterman went over the Rubicon when he misjudged Feneridis' clock, to lose on time in an even endgame. Sarapu also apparently felt weariness creeping upon him. He took half an hour to calculate a Bishop sacrifice against Marsick, but it worked like a charm.

A 11 p-kr3 is the main line White gets into a tangle in the centre.

B A day off? still p-qr3. C A pawn won at the price of the KB.

D riskier than ...qxqp. but more active for both. E almost forced.

F 34...q-qb8+ 35 k-r2 q-b4. 36 q-b6!? p-qr4, 37 qxq pxq and the qp is caught by the K. G Time race ends. H thanks goodness.

The second round of the day found the players even more tired than in the morning. Hayes collected his first win - not before time, as he has had some excellent positions only to ruin them in self-made time trouble. Frankel emerged from his favourite Dutch with a won game, but overlooked a piece. Marsick missed the win of a pawn at QB6 which would have nullified Sutton's combination. This game and Hutchings-Court were the only French Defences of the tournament. Phillips v Sarapu was a solid positional game with Phillips having perhaps a slight edge. Esterman won the exchange, exchanged queens too soon, and could find no open lines for his rooks.

A White had ample time to prepare his attack with p-kr4 but instead he lets the knight in.

B This blunder costs a piece, but Black's game is hard to hold. At the end Ian gets his well deserved win after all.

DRAWN		

What an impression this game leaves! We have no wish to add notes.

There was still some tension in the last round as the dropping of even half a point by one of the leaders could have upset the final placings. Sarapu however assured himself of the Championship by taking relentless advantage of an unsound sacrifice. Feneridis made equally certain of second with a ruthless win from Haase. Phillips took a pawn which Sutton mistakenly offered, and with it third prize. Court and Marsick played the only game to need a second session of play, but it ended on a rather light-hearted note anyway. Esterman added another loss to Hayes' unhappy record, this time in a very nice game. Hutchings was completely unrecognisable against Douglas.

The Championship Reserve

The comparatively small entry in this tournament could have been a serious headache for the Congress Committee. The rules state that this must be a Swiss system tournament. But making a draw according to strict "Swiss" rules when the number of competitors nearly equals the number of rounds is a tremendously difficult job. Before the play began the players agreed that the draw for the tournament should be made as though it were a 13-round round robin, and two rounds should be eliminated, leaving 11 rounds of play. This can with the wisdom of hindsight be seen to be unfortunate as the eventual winner did not play the runner-up.

W Petre won the tournament by a wide margin. He made a magnificent start with 7 wins and a draw before he lost in the 9th round. By that time he was already $1\frac{1}{2}$ points ahead of the field. Unfortunately his nearest rival, Ken Steele, fell ill at this point and was admitted to hospital. Ken defaulted his last three games, and no-one else had much chance of catching up with Bill Petre.

r. 1 Ross Colebaker of Auckland is a stranger to the players of Otago. Our ideas were not clarified by his enigmatic game in the 1st round in which he plays the quietest of Sicilians. Bob Abbott, his opponent, arrived by air mail from Christchurch on the first morning. Still unsettled after his trip he confounds the strategist by indulging in some Q-side manoeuvres, leaving a rook standing on KB1.

Ross Colebaker

Bob Abbott

White does not recover from the
shock of the sacrifice.

r.4 Several schoolboys played in the tournaments, the most successful was Chris Evans of Te Awamutu, who scored 50% in the Championship Reserve. The boys were well equipped with opening theory, but tended to drift once off the books. Consequently they took some pastings from more experienced players. They will quickly remedy this defect. Here Chris turns the table by seizing his chance early against the crafty Max Ponimoni.

r.6 John Harraway is the only other schoolboy in this tournament. He is currently co-holder of the New Zealand Schoolboys' Championship. At Congress his performance was disappointing as he collected $3\frac{1}{2}$ only. John seemed rather over-awed by the occasion and played rather timid chess.

r.8 Bob Watt (Dunedin) is a veteran of many Congresses, and usually enjoys a place in or near the prize list. This time he was right out of touch, and was unable to polish off opponents who were virtually defeated. In a rare demonstration of his normal skill, he obtains an excellent game against the eventual winner.

WHITE RESIGNS

r.11 Len Wheeler (Dunedin) is another player who can be relied upon to approximately score 50% in tournament play. He is very solid but tends to be timid in his play against the leaders, and hence seldom collects more than half points from them. This game was played in the last round. About half way through it Ponimoni got into a losing position against Watt. Owen Thomson needed only half a point to be clear third. He gets ambitious and snatches a pawn at the slight cost of the queen (or he might have allowed mate)

r.14 Bill Petre (Dunedin) won the Championship Reserve tournament with a comfortable margin of one and a half points. Bill is a regular contender for the South Island Championship, and last time he played so well that he had the hardest "Swiss" draw of all, and he scored a creditable two points in his five games with the prize-winners. He last played in Congress in the Reserves two years ago, taking sixth place, and again scoring well against the players above him. One of his games (against Bill Poole) gained him second place in the competition for the best game. Here he quickly collects a point from a passive opponent.

r.15 The critical game of the Reserve event was played in round 10. Owen Thomson is running second with $6\frac{1}{2}$ points to Bill Petre's $7\frac{1}{2}$. He must win to catch up. Bill is also out for a win. He is drawn against Ken Steele in the last round, but, since Ken is ill and has retired, Bill is already assured of the point. But Bill does not want to win on a default. His victory in this game assures him of first place with a round to spare, and brings Barry Howard into 2nd.

The Cracksman was ???

When the seventh round was due to start on the morning of Saturday 2.1.60 it was found that the key to one of the tournament rooms was inside the room, and the door was locked! The appeal by the D.O.P. for the services of a professional housebreaker (Burglars work only at night) met with no open (worthwhile) response. However Max Ponimoni cried "Open Sesame!" - we are not at liberty to reveal his exact technique - and opened the door. This trick with things mechanical so alarmed his opponent for the round (Owen Thomson) that he demanded that the D.O.P. keep the clock under continual surveillance during the game. This proved no arduous task since Max was so pleased with his earlier feat that he presented Owen with a piece, and resigned in less than 20 moves.

		SECOND CLASSIFIED		TOURNAMENT			(results table)

6	G. Bishop (Wgtn)	DD	DD	OD	DD	DD		0	0

(G. Bishop withdrew after one round of the Congress)

The Second Classified Tournament

This tournament too could not proceed according to plan, as the original seven competitors made it difficult to squeeze in sufficient rounds. The withdrawal of G. Bates made it possible to play a double round-robin of ten games. However the subsequent retirement of G. Bishop after the first round again created a bye. Lindsay Amies won the tournament by a clear point from his younger brother, John Amies. Victory for Lindsay was almost assured when he defeated his brother in the first cycle of games. Lindsay scored 8 successive wins in his first 8 games (including the bye) and the others had only a mathematical chance of catching him.

2c.1 Lindsay Amies is one of the Dunedin schoolboys regularly attending the schoolboy session at the Otago Chess Club. Since this session was started two years ago by Graham Haase and Bob Raza, Lindsay's chess has steadily improved. His style is effective, as is demonstrated by his high placings in local schoolboys' tournaments, and by his run-away victory in the Second Class Tournament. If he has not the chess eye of his younger brother, John, his efficiency is much greater over the board. This is the key game of the Tournament. Played in the fourth round it gave Lindsay a lead of $1\frac{1}{2}$ points which proved uncatchable.

RESIGNS

2c.2 The first battle between the second and third prize winners. Neville Hutton and John Amies are about equally matched at the Otago Tu schoolboys group. John is imaginative and impatient while Neville like Lindsay Amies is quieter and more thorough. Here the pair work on and off the book. A rocky middle-game sees white lose the exchange only to hold the draw in an interesting end-game.

2c.3 The only lady player in the Congress was our Australian visitor, Miss Diana Purdy, who is on an extended holiday from "Chess World". Her play in the tournament was somewhat disappointing, as she was thought to have a good chance of winning. In her first round game she built up a nice attack on John Amies, who defended with surprising accuracy. In some time trouble Diana allows her attack to falter, and the finish is spoiled by a clock-blunder.

(Queen's Indian Defence)

2c. 4 Martin Nome is a relative newcomer to the game. He first appeared in the beginners' classes at the Otago Chess Club 18 months ago, and has since been a regular attender at club nights. He won only one game in the tournament, but it was one of the most accurately played. The victim was again our unfortunate visitor.

The New Year Celebrations

"Seeing in the new year" is an event which is possibly still of more importance than Christmas celebrations to older Dunedinites, who have memories of the traditional Scots festivals.

Several of the local players held an "open house" for the night. Some of the players seized the opportunity to share a convivial glass and chat, but such a series of chessplayers inevitably directed the conversations back to the games. Some daring chaps actually played chess, but a few heretics put in the evening with a rubber or two of bridge. So far as we know there was no one who did not see the new year in.

It may have been very fortunate that even the compressed timetable allowed a free morning on the First of January.

Sunday Driving

Sunday is a free day under the rules of the Congress, but illness on earlier days, preventing play when due meant that some matches had to be played in the morning to bring the backlog down to zero.

The Otago Chess Club invited the players and their wives to a tour of Otago Peninsula in the afternoon. When Bruce M..... volunteered to bring along 2 or 3 waitresses from his hotel an upper limit of one wife per player had to be enforced. The day was somewhat overcast but warm so the trip was pleasant even though the viewing was not the best. Bruce M..... fell asleep half way through the trip so it was as well that he had no non-chessplaying company.

The tour concluded with afternoon tea and a stroll through the grounds of Glenfalloch, a local beauty spot.

After the Tournament

Sir Donald Cameron, an old friend of the Otago Chess Club, was welcomed by Dr Gardner to the players' meeting on Wednesday morning, 6 January. Sir Donald, in the absence of our Patron J.J. Marlow, presented the prizes won in the Congress. The tournament prizes were already settled, but a special prize had been offered by Mr Robertson of Rakaia without it being for any definite purpose - a special merit prize. It was awarded to 14 year old Chris Evans for his excellent score in the Reserves. Ortvin Sarapu, on behalf of the players thanked Sir Donald, and warmly commended Dr Gardner for his solid work as director of play. The catering committee, Bob Cooper and Bob Glass also came in for some embarrassing thanks. The players decided to send messages of sympathy to J.J. Marlow and Ken Steele who are still in hospital.

The formalities being over, the players settled down to a little more lightning chess before rushing off to catch their trains.

Postscript

In an amateur effort there must inevitably be certain weaknesses. We are quite certain that our little booklet abounds with them. But we could not let our 75th anniversary go by without endeavouring to revive the old custom which was dropped some thirty years ago. The books published then were printed and bound, so we cannot claim comparability.

In our efforts to bring this out while it is still topical we have had to sacrifice something in content. Consequently the notes we give to the games are made only after sketchy study, and we do not claim deadly accuracy. To assist our cause we have importuned the players for their own comments after the games. The response has been most generous. After the tournament we co-opted Ian Hayes and Les Esterman to lend a hand. To these two, and to the players must go our thanks - without your help our task would be arduous indeed.
